

 **InnoAgPepRhiza500**
Bio-Fertilizer
5-0-0

Guaranteed Analysis

Total Nitrogen (N)5.0%
(Derived from Soy Protein Hydrolysate)

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS

Mycorrhiza fungi 500 spores/g
Funneliformis mosseae 250 spores/g
Rhizoglyphus irregularis..... 250 spores/g

InnoAg PepRhiza 500 is ideal for fertigation.

EXP DATE: Two years after production date.

DIRECTIONS FOR USE

InnoAg PepRhiza 500 is a soluble powder designed for applications in fertigation, with drip lines, or as a root drench. We recommend one application at time of transplant. Alternatively, it can be applied via fertigation or root drench anytime throughout the growing season.

InnoAg PepRhiza 500 is compatible with most common fertilizers, herbicides and some fungicides. The application of fungicides and chemical phosphate fertilizers may slow the development of mycorrhizae. Dosage and frequency listed are general guidelines.

ALWAYS PERFORM A JAR TEST TO CHECK FOR COMPATIBILITY.

Crops	Recommended Rate
Vegetables (field or greenhouse)	0.5 - 1.0 lbs/ac
Orchards (root drench)	1.5 lbs/ac
Turf	3.0 lbs/ac
Substrate	13.0 oz/yd ³

STORAGE AND DISPOSAL

Store product in original container in a cool, dry area away from excessive moisture and heat. Avoid excessive heat above 100° F. Keep away from children and pets. If empty, offer for recycling, if available, or discard contents according to local ordinances.
