

GUARANTEED ANALYSIS

PRINCIPLE FUNCTIONING AGENT

Silicon Dioxide.....0.1%

INERT INGREDIENTS

Active: Humic Acids.....0.1%

Inert: Total Other Ingredients.....99.0%

Derived from: Silicon Dioxide, Leonardite and Water

CONTAINS NONPLANT FOOD INGREDIENTS

DESCRIPTION

InnoAg PRO is an adjuvant that enhances effectiveness of herbicides, fungicides, insecticides and defoliant. Its unique formulation developed locally in the US, delivers plant protection products more efficiently to plant cells.

APPLICATION RATES

Apply 4 fluid ounces (118.2 ml) of **InnoAg Pro** to the acre in 20 to 100 gals. Use with every herbicide, fungicide or insecticide application.

GENERAL USE DIRECTIONS

Add **InnoAg Pro** in sufficient water to ensure adequate crop coverage and mix well before adding other products and applying. **InnoAg Pro** is intended to be tank mixed with agricultural products to improve absorption.

InnoAg Pro should only be used with pesticides that allow use of adjuvants in their label.

ALWAYS PERFORM A JAR TEST TO CHECK FOR COMPATIBILITY

PRECAUTIONS AND RECOMMENDATIONS

- **InnoAg Pro** is not intended to replace other adjuvant products.
- Do not use with copper-based fungicides or fixed copper.
- A compatibility test is recommended before applying combinations of this product with any other product.

STORAGE AND DISPOSAL

Store product in original container in a cool, dry area away from excessive moisture and heat. Avoid excessive heat above 100° F. Keep away from children and pets. If empty, offer for recycling, if available, or discard contents according to local ordinances.
